

Georgia

UNEMPLOYMENT INSURANCE

OPPORTUNITY REPORT

Prepared by the American Institute for Full Employment • December 2017

Georgia has the opportunity to save millions of dollars and promote the overall well-being of its unemployed workers by implementing additional best practices in its Unemployment Insurance (UI) program. UI is an often overlooked, yet critical program for employers and employees. UI policy decisions involve not only significant expenditures in the economy, affecting the business climate and economic development, but also the financial, mental, and physical well-being of the unemployed. In designing their UI programs, federal law allows states substantial flexibility that is rarely used. The American Institute for Full Employment has the resources and personnel to help you design and implement innovative UI and workforce programs that make impact. For a comprehensive review and analysis of how to make a difference, please contact Bill Starks, Unemployment Insurance Project Director at 801-556-2942 or bills@fullemployment.org.

Unemployment Rate and Caseload

	Jun-16	Jun-17
Unemployment Rate *	5.30%	4.80%
Civilian Labor Force*	4,903,771	5,037,965
Unemployed*	259,317	240,586
Avg Paid Caseload during the Quarter**	23,368	21,635
Total Benefits Paid ***	\$383 mil	\$332 mil

* Seasonally Adjusted ** Regular UI Claims *** Annual

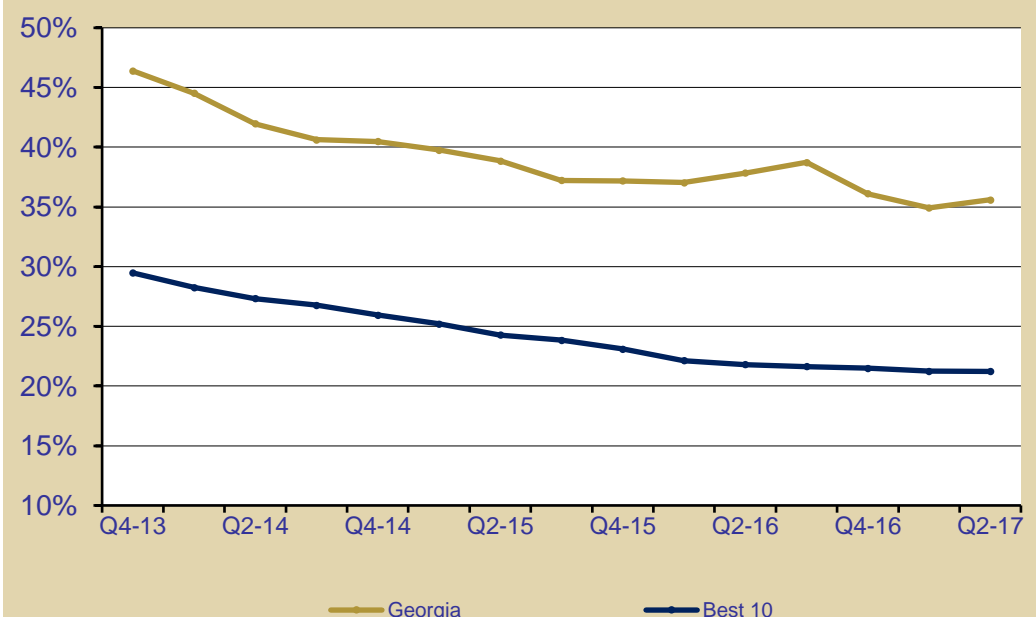

Effectiveness

over one third of all claimants exhausted their benefits.

Claim Duration (weeks) Quarterly Data

Exhaustion Rate Quarterly Data

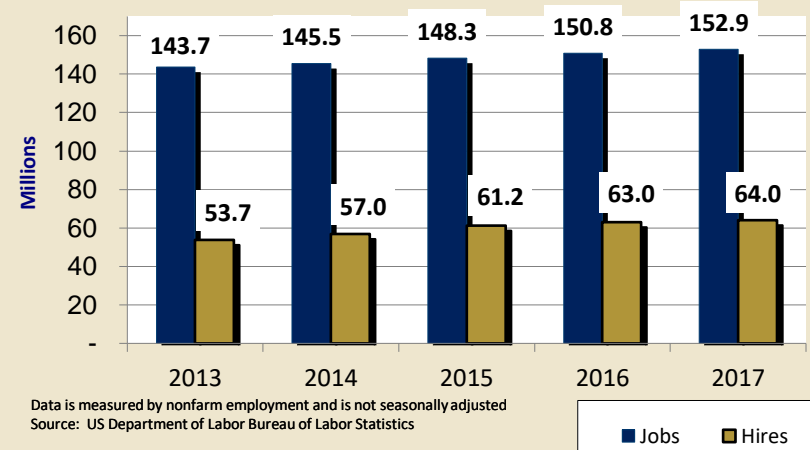

Jul 2016 - Jun 2017 Average	Best 5	Best 10	GA	GA Rank
-----------------------------	--------	---------	----	---------

CLAIM DURATION The average number of weeks UI claimants received benefits	9.8	11.0	8.4	1
---	-----	------	-----	---

EXHAUSTION RATE The average percentage of UI claimants who exhausted their benefits	17.0%	21.2%	35.6%	34
---	-------	-------	-------	----

US Total Jobs & Annual Hires 2013-2017 (July - June)

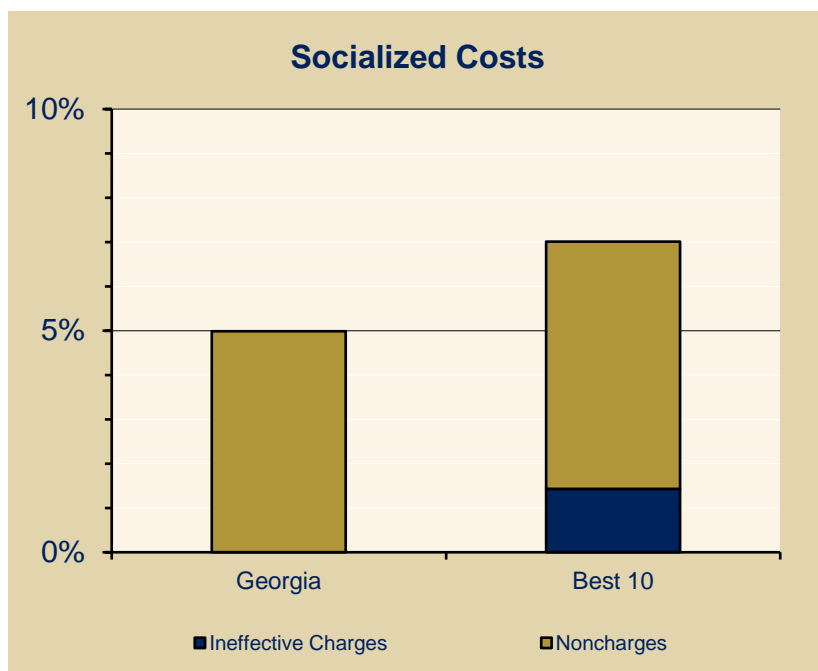

US Total Jobs & Annual Hires Summary

In an economy of approximately 150 million jobs, US employers made over 64 million hires - more than one hire for every three jobs. Common statistics track only net new jobs, but our dynamic economy creates many more opportunities than just those from net new jobs. Job openings and hiring activity come from a variety of sources normally, including: 1) quits, 2) retirement, 3) moves, 4) firing, 5) total new job creation and other causes

Efficiency

Georgia's UI tax structure had 29% less socialized costs than the Best 10 states, costing all employers \$22 million for such charges.

2016	Best 5	Best 10	GA	GA Rank
SOCIALIZED COSTS *	5%	7%	5%	2

The percentage of benefit costs not charged to responsible employers, but instead socialized as:

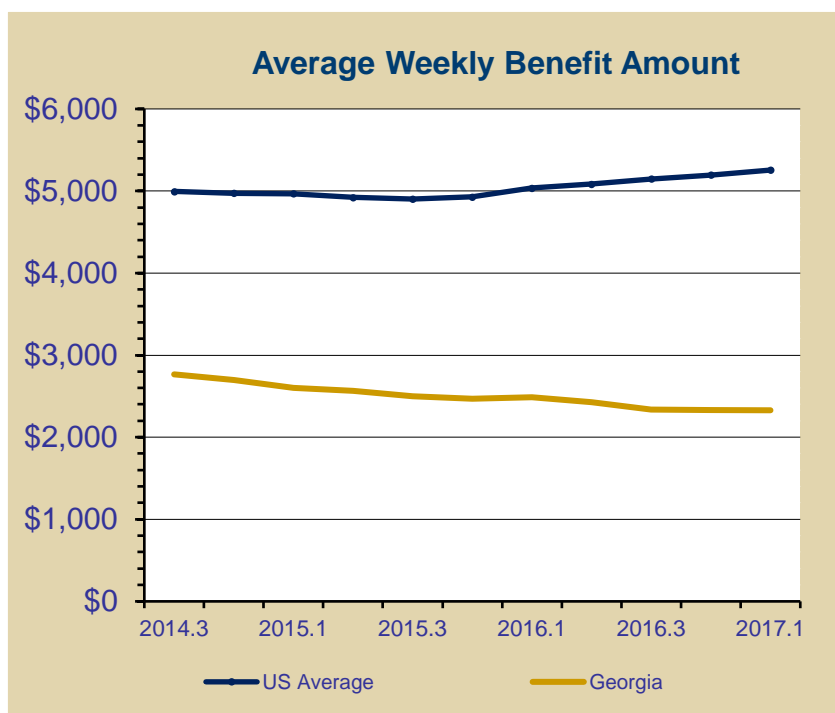

- 1) Noncharges - the total amount of benefit payments not charged to individual employer experience rating accounts. They often shift to the UI tax system social program costs; such as payments to workers who voluntarily quit . and
- 2) Ineffective Charges - the yearly amount of benefit charges assigned to individual employers that exceed the amount of contributions paid by those same employers in the following year. These charges tend to lessen some employers' responsibility to pay the full cost of their claims, due to e.g. a maximum tax rate that is too low or an otherwise less responsive tax structure.

The levels of both noncharges and ineffective charges are largely within the control of state policy makers and affect the state's unemployment rates by raising or lowering: 1) the cost of employing a worker and 2) the cost of laying off a worker.

* Data from the 2016 Significant Measures Report - U.S. Department of Labor Office of Workforce Security

Cost

The average UI claim cost in Georgia was 55% less than the US average.

Jul 2016 - Jun 2017 Average	GA	US Average
AVERAGE COST PER CLAIM	\$2,460	\$5,461
The average annual amount of regular benefits paid per first payment. This is a function of duration and benefit levels.		
WAGE REPLACEMENT RATE	29.7%	34.2%
The average amount of weekly UI benefits paid per claimant divided by the average amount of weekly wages earned.		

How We Can Assist Your State in Improving Performance

- Analysis of claimant information flow between agencies and job sources
- Evaluation of performance measures and incentives
- Examination of coordination of all agencies involved with UI claimant
- Integration of claimant work search rules, incentives and assistance
- Analysis of a subsidized wage program for employers willing to train UI claimants
