# UNEMPLOYMENT INSURANCE

## OPPORTUNITY REPORT

Prepared by the American Institute for Full Employment • July 2018

**Kansas** has the opportunity to save millions of dollars and promote the overall well-being of its unemployed workers by implementing additional best practices in its Unemployment Insurance (UI) program. UI is an often overlooked, yet critical program for employers and employees. UI policy decisions involve not only significant expenditures in the economy, affecting the business climate and economic development, but also the financial, mental, and physical well-being of the unemployed. In designing their UI programs, federal law allows states substantial flexibility that is rarely used. The American Institute for Full Employment has the resources and personnel to help you design and implement innovative UI and workforce programs that make impact. For a comprehensive review and analysis of how to make a difference, please contact Bill Starks, Unemployment Insurance Project Director at 801-556-2942 or [bills@fullemployment.org](mailto:bills@fullemployment.org).

### Unemployment Rate and Caseload

	Dec-16	Dec-17
Unemployment Rate *	4.00%	3.50%
Civilian Labor Force*	1,481,576	1,478,476
Unemployed*	58,926	52,249
Avg Paid Caseload during the Quarter**	8,490	7,223
Total Benefits Paid ***	\$205 mil	\$178 mil

\* Seasonally Adjusted \*\* Regular UI Claims \*\*\* Annual

## Effectiveness

*Kansas' Claim Duration was only 1.4 weeks higher than the Best 10 state average, ranking Kansas 4th among all states, but well over one third of all claimants exhausted their benefits.*

Jan 2017 - Dec 2017 Average	Best 5	Best 10	KS	KS Rank
<b>CLAIM DURATION</b> The average number of weeks UI claimants received benefits	9.8	10.9	11.2	4
<b>EXHAUSTION RATE</b> The average percentage of UI claimants who exhausted their benefits	16.8%	21.4%	37.1%	36

### US Total Jobs & Annual Hires Summary

*In an economy of approximately 153 million jobs, US employers made over 65 million hires - more than one hire for every three jobs. Common statistics track only net new jobs, but our dynamic economy creates many more opportunities than just those from net new jobs. Job openings and hiring activity come from a variety of sources normally, including: 1) quits, 2) retirement, 3) moves, 4) firing, 5) total new job creation and other causes*

For the purposes of this report, "States" include the 50 US states plus the District of Columbia, The Virgin Islands and Puerto Rico. "Rank" is from 1 to 53, with 1 being the best performance per category. All base data used and developed in this report was sourced from the US Department of Labor and the Bureau of Labor Statistics.

# Efficiency

Compared with Kansas, the average Best 10 state promoted more employment through a UI tax structure that had 90% less in socialized costs.

2017	Best 5	Best 10	KS	KS Rank
<b>SOCIALIZED COSTS *</b>				
	5%	7%	18%	22

The percentage of benefit costs not charged to responsible employers, but instead socialized as:

- 1) Noncharges - the total amount of benefit payments not charged to individual employer experience rating accounts. They often shift to the UI tax system social program costs; such as payments to workers who voluntarily quit . and
- 2) Ineffective Charges - the yearly amount of benefit charges assigned to individual employers that exceed the amount of contributions paid by those same employers in the following year. These charges tend to lessen some employers' responsibility to pay the full cost of their claims, due to e.g. a maximum tax rate that is too low or an otherwise less responsive tax structure.

The levels of both noncharges and ineffective charges are largely within the control of state policy makers and affect the state's unemployment rates by raising or lowering: 1) the cost of employing a worker and 2) the cost of laying off a worker.

\* Data from the 2017 Significant Measures Report - U.S. Department of Labor Office of Workforce Security

# Cost

The average UI claim cost in Kansas was 20% less than the US average.

Jan 2017 - Dec 2017 Average	KS	US Average
<b>AVERAGE COST PER CLAIM</b>		
Benefits Paid for all weeks compensated divided by the number of first payments.	\$4,173	\$5,240
<b>WAGE REPLACEMENT RATE</b>		
The average amount of weekly UI benefits paid per claimant divided by the average amount of weekly wages earned.	44.0%	34.0%

## How We Can Assist Your State in Improving Performance

- Analysis of claimant information flow between agencies and job sources
- Evaluation of performance measures and incentives
- Examination of coordination of all agencies involved with UI claimant
- Integration of claimant work search rules, incentives and assistance
- Analysis of a subsidized wage program for employers willing to train UI claimants
