## UNEMPLOYMENT INSURANCE

### OPPORTUNITY REPORT

Prepared by the American Institute for Full Employment • May 2019

**North Carolina** has the opportunity to save millions of dollars and promote the overall well-being of its unemployed workers by implementing additional best practices in its Unemployment Insurance (UI) program. UI is an often overlooked, yet critical program for employers and employees. UI policy decisions involve not only significant expenditures in the economy, affecting the business climate and economic development, but also the financial, mental, and physical well-being of the unemployed. In designing their UI programs, federal law allows states substantial flexibility that is rarely used. The American Institute for Full Employment has the resources and personnel to help you design and implement innovative UI and workforce programs that make impact. For a comprehensive review and analysis of how to make a difference, please contact Bill Starks, Unemployment Insurance Project Director at 801-556-2942 or [bills@fullemployment.org](mailto:bills@fullemployment.org).

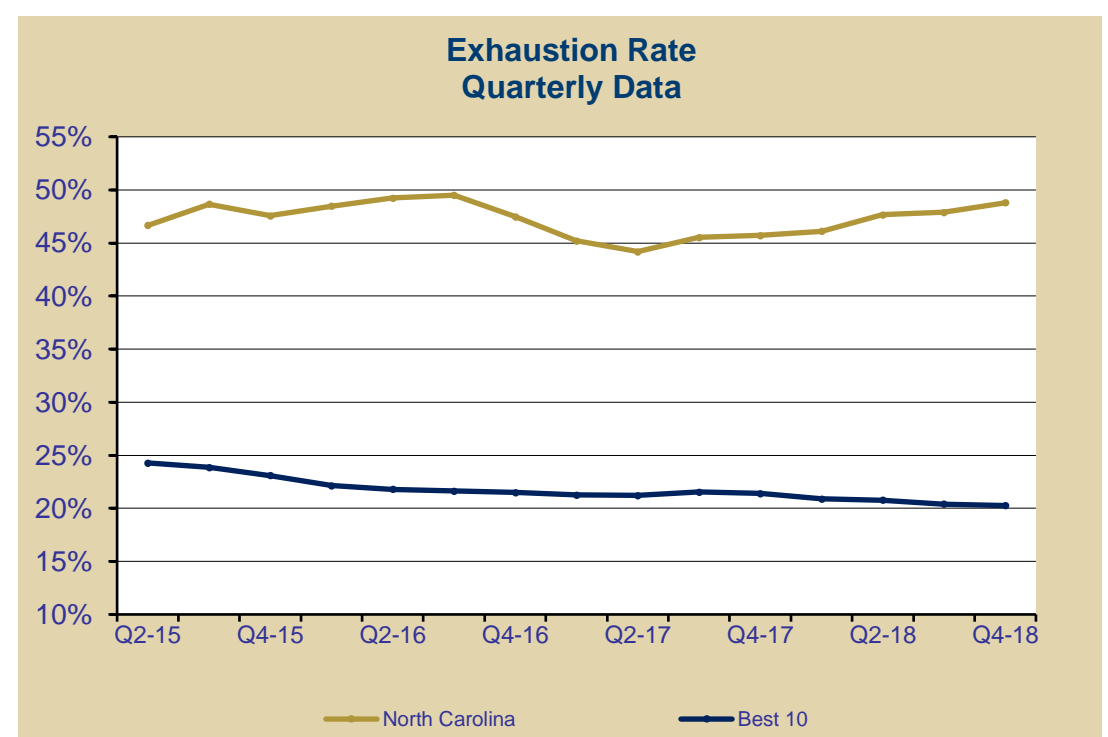

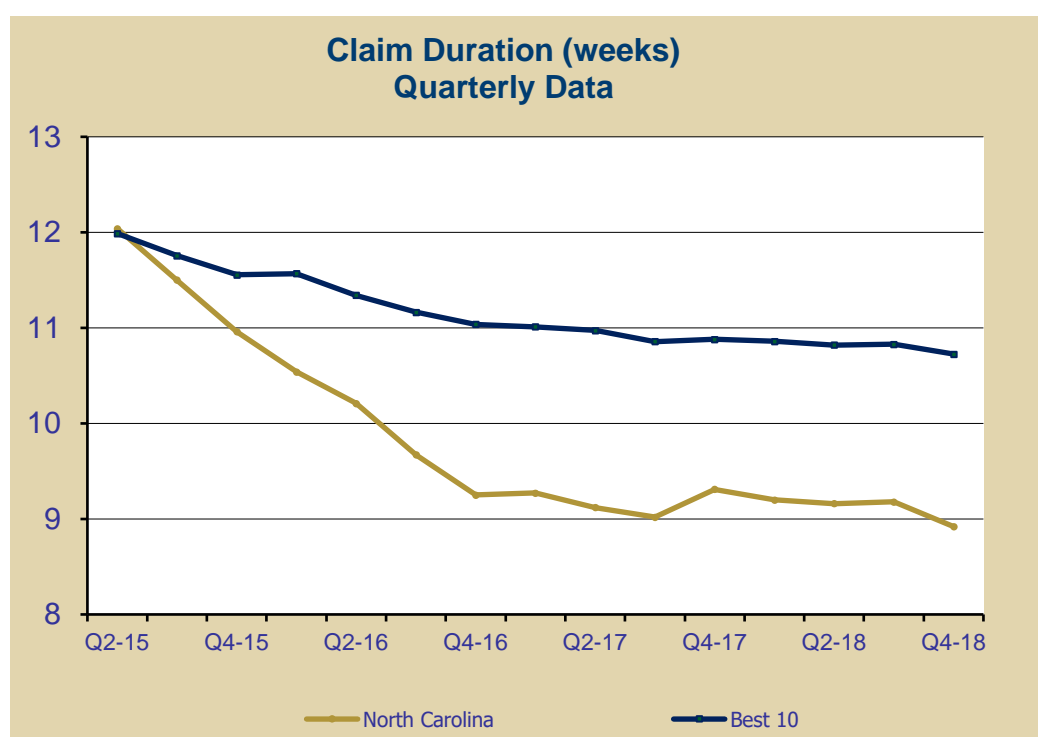

#### Unemployment Rate and Caseload

	Dec-17	Dec-18
Unemployment Rate *	4.20%	3.70%
Civilian Labor Force*	4,959,580	4,988,182
Unemployed*	210,612	185,924
Avg Paid Caseload during the Quarter**	12,874	11,453
Total Benefits Paid ***	\$197 mil	\$170 mil

\* Seasonally Adjusted \*\* Regular UI Claims \*\*\* Annual

## Effectiveness

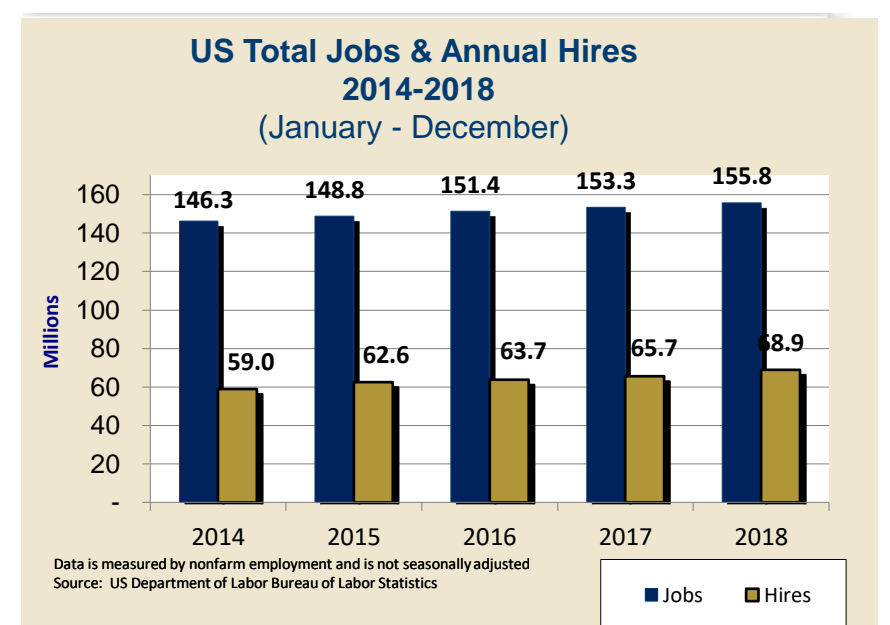

North Carolina's Claim Duration was 0.5 weeks lower than the Best 10 state average, ranking North Carolina 2nd among all states, but nearly one half of all claimants exhausted their benefits.

January 2017 - December 2018 Average	Best 5	Best 10	NC	NC Rank
<b>CLAIM DURATION</b> The average number of weeks UI claimants received benefits	9.4	10.7	8.9	2
<b>EXHAUSTION RATE</b> The average percentage of UI claimants who exhausted their benefits	16.2%	20.3%	48.8%	51

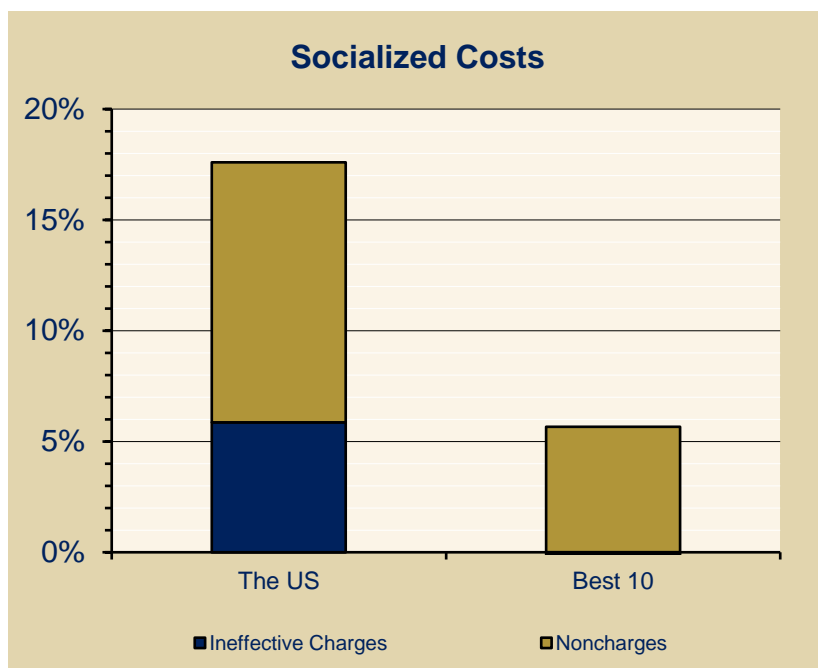

#### US Total Jobs & Annual Hires Summary

In an economy of approximately 156 million jobs, US employers made over 69 million hires - more than one hire for every three jobs. Common statistics track only net new jobs, but our dynamic economy creates many more opportunities than just those from net new jobs. Job openings and hiring activity come from a variety of sources normally, including: 1) quits, 2) retirement, 3) moves, 4) firing, 5) total new job creation and other causes

# Efficiency

Compared with North Carolina, the average Best 10 state promoted more employment through a UI tax structure that had 1795824% less in socialized costs.

2018	Best 5	Best 10	NC	NC Rank
SOCIALIZED COSTS *	3%	6%	NO DATA	

The percentage of benefit costs not charged to responsible employers, but instead socialized as:

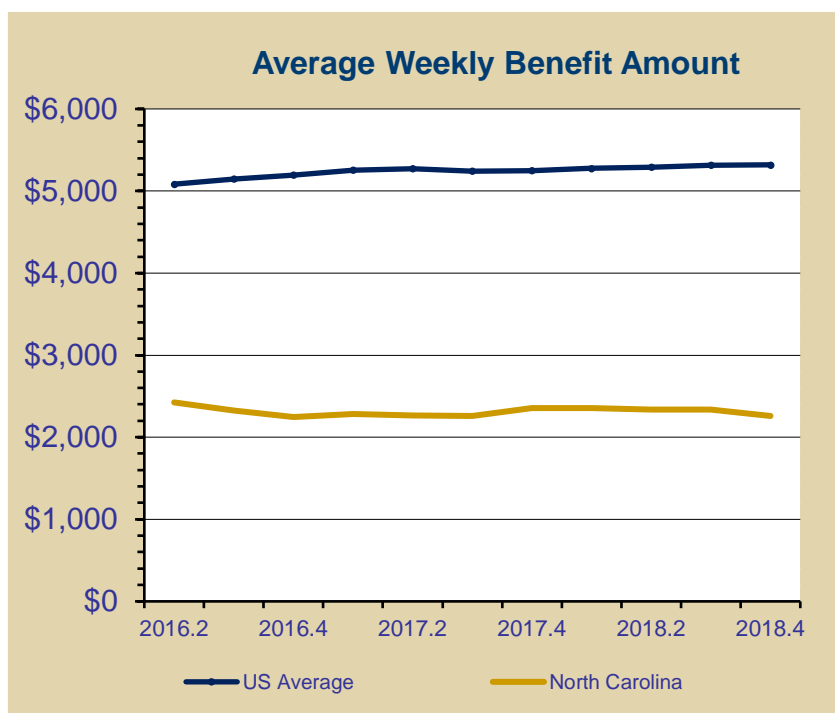

- 1) Noncharges - the total amount of benefit payments not charged to individual employer experience rating accounts. They often shift to the UI tax system social program costs; such as payments to workers who voluntarily quit . and
- 2) Ineffective Charges - the yearly amount of benefit charges assigned to individual employers that exceed the amount of contributions paid by those same employers in the following year. These charges tend to lessen some employers' responsibility to pay the full cost of their claims, due to e.g. a maximum tax rate that is too low or an otherwise less responsive tax structure.

The levels of both noncharges and ineffective charges are largely within the control of state policy makers and affect the state's unemployment rates by raising or lowering: 1) the cost of employing a worker and 2) the cost of laying off a worker.

\* Data from the 2018 Significant Measures Report - U.S. Department of Labor Office of Workforce Security

# Cost

The average UI claim cost in North Carolina was 58% less than the US average.

January 2018 - December 2018 Average	NC	US Average
AVERAGE COST PER CLAIM Benefits Paid for all weeks compensated divided by the number of first payments.	\$2,260	\$5,319
WAGE REPLACEMENT RATE The average amount of weekly UI benefits paid per claimant divided by the average amount of weekly wages earned.	26.9%	33.0%

## How We Can Assist Your State in Improving Performance

- Analysis of claimant information flow between agencies and job sources
- Evaluation of performance measures and incentives
- Examination of coordination of all agencies involved with UI claimant
- Integration of claimant work search rules, incentives and assistance
- Analysis of a subsidized wage program for employers willing to train UI claimants
