

Utah

UNEMPLOYMENT INSURANCE

OPPORTUNITY REPORT

Prepared by the American Institute for Full Employment • October 2019

Utah has the opportunity to save millions of dollars and promote the overall well-being of its unemployed workers by implementing additional best practices in its Unemployment Insurance (UI) program. UI is an often overlooked, yet critical program for employers and employees. UI policy decisions involve not only significant expenditures in the economy, affecting the business climate and economic development, but also the financial, mental, and physical well-being of the unemployed. In designing their UI programs, federal law allows states substantial flexibility that is rarely used. The American Institute for Full Employment has the resources and personnel to help you design and implement innovative UI and workforce programs that make impact. For a comprehensive review and analysis of how to make a difference, please contact us at (800) 562-7752 or info@fullemployment.org.

Unemployment Rate and Caseload

	Jun-18	Jun-19
Unemployment Rate *	3.10%	2.80%
Civilian Labor Force*	1,568,864	1,590,591
Unemployed*	48,713	45,212
Avg Paid Caseload during the Quarter**	6,301	5,898
Total Benefits Paid ***	\$148 mil	\$148 mil

* Seasonally Adjusted ** Regular UI Claims *** Annual

Effectiveness

On average, UI claimants in Utah did not find their way off of unemployment insurance for almost three months, and over one quarter of all claimants exhausted their benefits. Eight states have < 26 weeks max. eligibility which may impact duration & exhaustion rates.

July 2018 - June 2019 Average	Best 5	Best 10	UT	UT Rank
CLAIM DURATION The average number of weeks UI claimants received benefits	9.1	10.5	12.3	10
EXHAUSTION RATE The average percentage of UI claimants who exhausted their benefits	15.4%	19.3%	25.7%	14

US Total Jobs & Annual Hires Summary

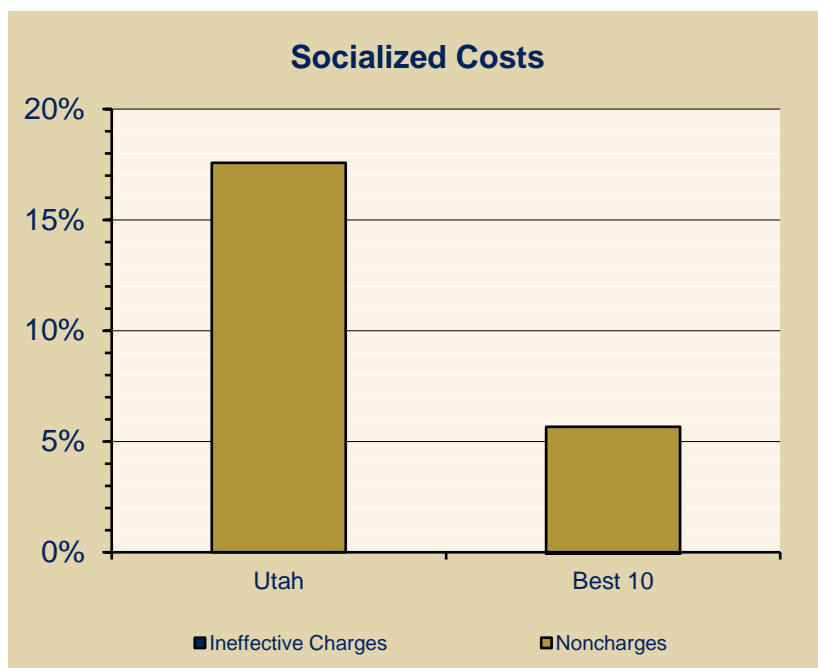

In an economy of approximately 156 million jobs, US employers made over 69 million hires - more than one hire for every three jobs. Common statistics track only net new jobs, but our dynamic economy creates many more opportunities than just those from net new jobs. Job openings and hiring activity come from a variety of sources normally, including: 1) quits, 2) retirement, 3) moves, 4) firing, 5) total new job creation and other causes

For the purposes of this report, "States" include the 50 US states plus the District of Columbia, The Virgin Islands and Puerto Rico. "Rank" is from 1 to 53, with 1 being the best performance per category. All base data used and developed in this report was sourced from the US Department of Labor and the Bureau of Labor Statistics.

Efficiency

Compared with Utah, the average Best 10 state promoted more employment through a UI tax structure that had 216% less in socialized costs.

	2018	Best 5	Best 10	UT	UT Rank
SOCIALIZED COSTS *		3%	6%	18%	26
<p>The percentage of benefit costs not charged to responsible employers, but instead socialized as:</p> <p>1) Noncharges - the total amount of benefit payments not charged to individual employer experience rating accounts. They often shift to the UI tax system social program costs; such as payments to workers who voluntarily quit . and</p> <p>2) Ineffective Charges - the yearly amount of benefit charges assigned to individual employers that exceed the amount of contributions paid by those same employers in the following year. These charges tend to lessen some employers' responsibility to pay the full cost of their claims, due to e.g. a maximum tax rate that is too low or an otherwise less responsive tax structure.</p> <p>The levels of both noncharges and ineffective charges are largely within the control of state policy makers and affect the state's unemployment rates by raising or lowering: 1) the cost of employing a worker and 2) the cost of laying off a worker.</p> <p>* Data from the 2018 Significant Measures Report - U.S. Department of Labor Office of Workforce Security</p>					

Cost

The average UI claim cost in Utah was 5% less than the US average.

	June 2018 - July 2019 Average	UT	US Average
AVERAGE COST PER CLAIM	Benefits Paid for all weeks compensated divided by the number of first payments.	\$5,049	\$5,288
WAGE REPLACEMENT RATE	The average amount of weekly UI benefits paid per claimant divided by the average amount of weekly wages earned.	45.5%	33.2%

How We Can Assist Your State in Improving Performance

- Analysis of claimant information flow between agencies and job sources
- Evaluation of performance measures and incentives
- Examination of coordination of all agencies involved with UI claimant
- Integration of claimant work search rules, incentives and assistance
- Analysis of a subsidized wage program for employers willing to train UI claimants
