

Kansas

UNEMPLOYMENT INSURANCE

OPPORTUNITY REPORT

Prepared by the American Institute for Full Employment • December 2022

Kansas has the opportunity to save millions of dollars and promote the overall well-being of its unemployed workers by implementing additional best practices in its Unemployment Insurance (UI) program. UI is an often overlooked, yet critical program for employers and employees. UI policy decisions involve not only significant expenditures in the economy, affecting the business climate and economic development, but also the financial, mental, and physical well-being of the unemployed. In designing their UI programs, federal law allows states substantial flexibility that is rarely used. The American Institute for Full Employment has the resources and personnel to help you design and implement innovative UI and workforce programs that make impact. For a comprehensive review and analysis of how to make a difference, please contact us at (800) 562-7752 or info@fullemployment.org.

Unemployment Rate and Caseload

	Sep-21	Sep-22
Unemployment Rate *	3.00%	2.60%
Civilian Labor Force*	1,496,137	1,499,425
Unemployed*	45,482	39,485
Avg Paid Caseload during the Quarter**	10,923	3,406
Total Benefits Paid ***	\$540 mil	\$120 mil

* Seasonally Adjusted ** Regular UI Claims *** Annual

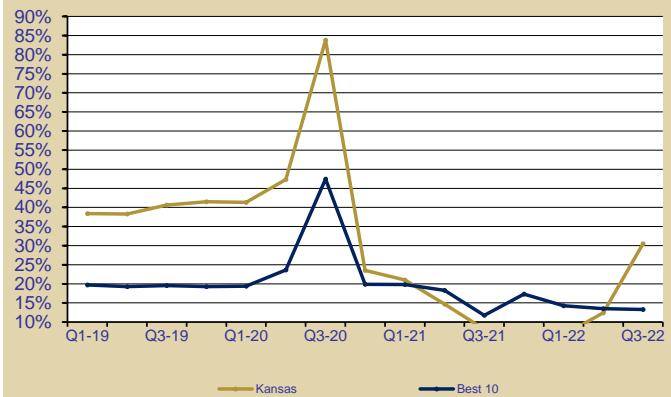

Effectiveness

On average, UI claimants in Kansas did not find their way off of unemployment insurance for almost three months, and nearly one third of all claimants exhausted their benefits. Eight states have < 26 weeks max. eligibility which may impact duration & exhaustion rates.

Claim Duration (weeks)
Quarterly Data

Exhaustion Rate
Quarterly Data

October 2021 - September 2022 Average	Best 5	Best 10	KS	KS Rank
CLAIM DURATION	9.0	9.9	12.2	18
The average number of weeks UI claimants received benefits				
EXHAUSTION RATE	10.8%	13.3%	30.5%	44
The average percentage of UI claimants who exhausted their benefits				

US Total Jobs & Annual Hires Summary

In an economy of approximately 145 million jobs, US employers made over 67 million hires - more than one hire for every three jobs. Common statistics track only net new jobs, but our dynamic economy creates many more opportunities than just those from net new jobs. Job openings and hiring activity come from a variety of sources normally, including: 1) quits, 2) retirement, 3) moves, 4) firing, 5) total new job creation and other causes

US Total Jobs & Annual Hires
2018-2022
(October - September)

For the purposes of this report, "States" include the 50 US states plus the District of Columbia, The Virgin Islands and Puerto Rico. "Rank" is from 1 to 53, with 1 being the best performance per category. All base data used and developed in this report was sourced from the US Department of Labor and the Bureau of Labor Statistics.

Efficiency

Compared with Kansas, the average Best 10 state promoted more employment through a UI tax structure that had 972% less in socialized costs.

	2021	Best 5	Best 10	KS	KS Rank
SOCIALIZED COSTS *		4%	7%	71%	31
<p>The percentage of benefit costs not charged to responsible employers, but instead socialized as:</p> <p>1) Noncharges - the total amount of benefit payments not charged to individual employer experience rating accounts. They often shift to the UI tax system social program costs; such as payments to workers who voluntarily quit, and</p> <p>2) Ineffective Charges - the yearly amount of benefit charges assigned to individual employers that exceed the amount of contributions paid by those same employers in the following year. These charges tend to lessen some employers' responsibility to pay the full cost of their claims, due to e.g. a maximum tax rate that is too low or an otherwise less responsive tax structure.</p> <p>The levels of both noncharges and ineffective charges are largely within the control of state policy makers and affect the state's unemployment rates by raising or lowering: 1) the cost of employing a worker and 2) the cost of laying off a worker.</p> <p>* Data from the 2021 Significant Measures Report - U.S. Department of Labor Office of Workforce Security</p>					

Cost

The average UI claim cost in Kansas was 11% less than the US average.

	October 2021 - September 2022 Average	KS	US Average
AVERAGE COST PER CLAIM		\$5,116	\$5,770
Benefits Paid for all weeks compensated divided by the number of first payments.			
WAGE REPLACEMENT RATE		41.0%	29.7%
The average amount of weekly UI benefits paid per claimant divided by the average amount of weekly wages earned.			

How We Can Assist Your State in Improving Performance

- Analysis of claimant information flow between agencies and job sources
- Evaluation of performance measures and incentives
- Examination of coordination of all agencies involved with UI claimant
- Integration of claimant work search rules, incentives and assistance
- Analysis of a subsidized wage program for employers willing to train UI claimants
